Popcorn and movie go together
Planets and moon go together
Sun and holidays go together
You and I are meant to be together.

Dear….

With you, it’s love at first sight
The rain is cold but your smile warms me up
At night,I think about you as if you were close to me
You illuminate my days like the moon illuminates my nights
I love you <3

Love.

I love you my dear,
I love you forever,
You are part of my heart,
You will be forever in my heart,
I love you madly,
I will love you till the end of time.
